REVIEW OF TASK 1:
- Task 1 was basically about setting personal and learning goals.
- Some of my personal goals were: socialize with people, develop professional contact and set up a workup routine.
- Learning goals were: do well in year 10 and improve my presentation skills.
- Some of the short term goals I have achieved.
- So, I can conclude that task has helped me to set strategies to achieve my short term goals.

REVIEW OF TASK 2:
- In task 2 we have looked in detail about the career chosen, personal strengths and weaknesses in literacy and numeracy, level of education required to achieve my goal, developing the chosen capability and mainly the subject choices for year 11.
- This helped to come closer with my career “Teaching”.

REVIEW OF TASK 3:
- Task 3 consisted of creating a resume, brochure, a group presentation and passport to safety test.
- The test that I finished helped me understand the workplace safety, which is very beneficial for the future.
- I also learnt about the personal and employability skills to become a teacher, by creating a brochure.
TO WHAT EXTENT DID I ACHIEVE MY GOALS AND PLANS THAT I MADE DURING THE PLP CLASS?

- My short term goal was to do well in year 10 and to have more friends.
- I paid attention during the classes and also adapted quickly to the learning style.
- I also socialized with people to have more friends.
- My medium term goal was to improve my presentation skills.
- I tried to eliminate stage fear, to gain confidence and improve my communication skills.

DID I CHANGE OR MODIFY MY GOALS DURING THE COURSE TIME OF PLP?

- I did not change or modify my goals.
- As I have not yet achieved some of the medium term and long term goals.

INTERACTIONS WITH OTHER PEOPLE DURING PLP CLASSES.

- I interacted with teachers and friends many times.
- During the time of task 3, I interacted with my friends, as it involved a group presentation.
- My job was to do power point slides and research for my questions.
- We worked in teams collaboratively.
- This helped me to develop decision making and also gain my confidence.

DIFFERENT STRATEGIES THAT I MIGHT INCULCATE IF I START PLP CLASS AGAIN.

- The short term goal that I would like to add is to do well in English.
- As I have migrated from India a few months ago, it would be quite difficult for me to adjust to the accent and also to complete the tasks.
- So, I should have added this on this my list.
- The strategies that I would include are: work hard, pay attention and take help from the teachers.
WHAT I MIGHT DO IN THE FUTURE TO ACHIEVE MY GOAL?

- To pursue my career in teaching I would: improve my communication skills, enrol in some post college or relevant courses, improve the capability to explain things to others and as with every profession, I should try to have fun while teaching.

CHosen CAPABILITY:

- Personal and social capability is about developing personal attributes and aptitudes, in areas such as confidence, goal-setting, independence and resilience.
- It also helps me to develop effective communication, working collaboratively and leadership qualities.
- So, this capability has helped me to do my presentations well.

DEscribing how planning the subjects for year 10 and year 11 helped me to consider the personal goals:

- I have chosen ancient studies in both year 11 and year 12 as I want to become a history teacher.
- I also have chosen chemistry, physics and advanced mathematics for both the years.
- I have made this choice as extra knowledge is good and I can also do teaching in these subjects if a get a chance.
- So, choosing the subjects has helped me to get some basic knowledge about my career.

THANK YOU
