

## How to register for a Venture Corporate Recharge Program

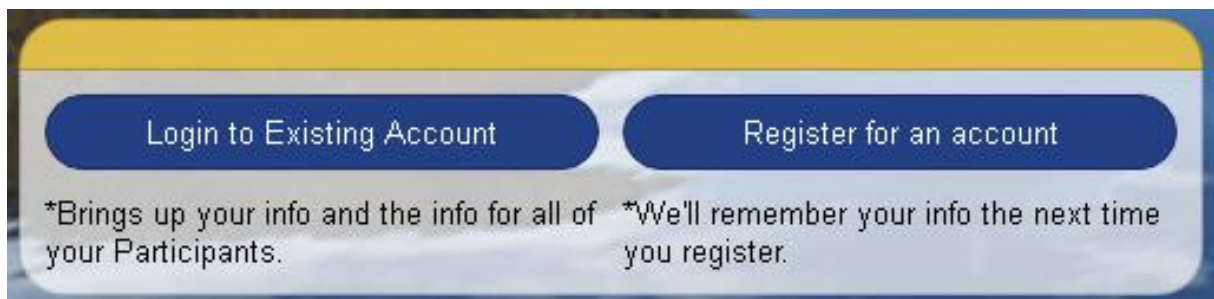

### Step 1

Find your camp. Type the link you were emailed or given in the “Parent letter” into the top bar in your web browser.

### Step 2

Scroll to the bottom of the page to login or create an account. If creating an account it must be in the name of an over 18 year old, generally the parent/caregiver. The page will reload after successful account creation.

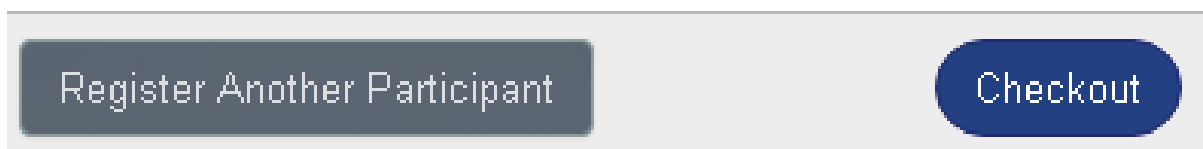

### Step 3

Scroll down to the participant listing. There is automatically a participant created for the account holder. If the participant you are registering is listed, click the button next to their name. If not, fill out their details and medical information then click “Add to Cart”

### Step 4

If you have finished adding participants, click “Checkout”. If you need to add another participant click “Register Another Participant”. You may need to re-enter the link your organisation gave you but previous information will not be lost.

### Step 5

Read, agree and sign the disclaimer. Click “Save and Continue”

### Step 6

Finish order by clicking “Process Order”.
